

Dear Delta Stewardship Council,

Do not make dual conveyance, the Delta tunnels, a promoted option or preferred alternative at this time. Instead, do the comprehensive review and analysis required by the Delta Reform Act and such other things as a benefit-cost analysis before declaring the Tunnels or anything else to be the promoted option and preferred alternative. We are asking for you to think first, act later. Why is there a rush for approval for a project without Federal permits, and without a financial plan?

I personally am very much against the tunnels. The state of California and Gov. Brown are not fiscally responsible and they have no right to push this through especially since there are so many people against it and only the special interest groups are for it.

I formally request that this message be read aloud at the upcoming board meeting.

Warm Regards.

Domenic Covarelli
